ORCID: 0000-0002-4400-7541

Education

Universitat Politècnica de Catalunya (UPC) — Spain
PhD in Statistics and Operations Research — 2016–2020

- Thesis: "Statistical methods and software for clinical trials with binary and survival endpoints. Efficiency, sample size and two-sample comparison". DOI: 10.5281/zenodo.4273986.
  Advisor: Guadalupe Gómez Melis
  Qualification: Excellent Cum Laude, International mention

Universitat Politècnica de Catalunya – Universitat de Barcelona — Spain
Master in Statistics and Operations Research (MESIO UPC-UB) — 2014–2016

- Thesis: "Relative Efficiency between two tests".
  Advisor: Guadalupe Gómez Melis

Universitat de Barcelona (UB) — Spain
Bachelor's degree in Mathematics — 2009–2014

- Thesis: "Anàlisi de la supervivència per dades censurades".
  Advisor: Olga Julià de Ferran

Experience

Universitat Politècnica de Catalunya — Barcelona, Spain
Serra Húnter fellow (tenure-eligible lecturer) — September 2024 -

- at the Department of Statistics and Operations Research

Medical University of Vienna — Vienna, Austria
Postdoctoral researcher — February 2021 - August 2024

- at the Center for Medical Data Science, Section for Medical Statistics

Universitat Politècnica de Catalunya — Barcelona, Spain
Postdoctoral researcher — December 2020 - February 2021

Universitat Politècnica de Catalunya — Barcelona, Spain
Technical Research Assistant — 2016 – 2018

Research stays

- **Medical University of Vienna**, Center for Medical Data Science. Description: Short research stay with professor Martin Posch (Section for Medical Statistics). 28 March 2025 - 7 April 2025.
- **Universität Bremen**, Kompetenzzentrum fur Klinische Studien Bremen und Institut für Statistik. Description: Short research stay with professor Werner Brannath (FB 03 Mathematik/Informatik). 2 Nov 2021 – 6 Nov 2021.
- **Medical University of Vienna**, Center for Medical Data Science. Description: Research stay with professor Martin Posch (Section for Medical Statistics). 7 Sept 2020 - 6 Nov 2020.
- **The University of Texas MD Anderson Cancer Center**. Description: Research stay with professor Yu Shen (Department of Biostatistics, Division of Basic Sciences). 10 Oct 2019 – 13 Nov 2019.

Statistical Software

1. NCC: Simulation and analysis of platform trials with non-concurrent controls.
   Authors: Krotka, P. (maintainer), **Bofill Roig, M.** (thesis advisor), Hees, K., Jacko, P., Magirr, D.
   Web-page: https://pavlakrotka.github.io/NCC/
   R-package: https://cran.r-project.org/package=NCC

2. CompAREdesign: Statistical Functions for the Design of Studies with Composite Endpoints.
   Authors: **Bofill Roig, M.** (maintainer), Cortés, J.
   R-package: https://cran.r-project.org/package=CompAREdesign
   Shiny-app: https://cinna.upc.edu/compare/

3. eselect: An R package for adaptive trial designs with selection of composite endpoints and sample size reassessment.
   Authors: **Bofill Roig, M.** (maintainer)
   R-package: https://cran.r-project.org/package=eselect

4. survmixer: Design of clinical trials with survival endpoints based on binary response.
   Authors: **Bofill Roig, M.** (maintainer)
   Web-page: https://martabofillroig.github.io/survmixer/
   R-package: https://cran.r-project.org/package=survmixer

5. Survbin: Two-sample statistics for binary and time-to-event outcomes.
   Authors: **Bofill Roig, M.** (maintainer)
   Web-page: https://martabofillroig.github.io/SurvBin/
   R-package: https://github.com/MartaBofillRoig/SurvBin

Grants, Awards, Fellowship, and Scholarships

Project grant

- Project "Methods for complex trial designs with shared controls" within Austrian Science Fund (FWF) ESPRIT Programme ("Early Stage Programme: Research, Innovation and Training"). Reference: ESP 442. From 2023 to 2026. (Amount: 316,036.52 €). Grant DOI 10.55776/ESP442. PI: Marta Bofill Roig.

Awards

- Special Doctoral Awards 2022 – Universitat Politècnica de Catalunya. Awarded for the thesis "Statistical methods and software for clinical trials with binary and survival endpoints. Efficiency, sample size and two-sample comparison" in the field of sciences.
- Student Award. Best conference paper at 9th EMR-IBS and Italian Region Conference. Criterion for decision: submission of extended abstract "The anticipated odds ratios to decide the choice of a primary binary endpoint".
- XIV Concurs STUDENT d'Estadística Aplicada (1r Prize in the category "Idescat"). Treball premiat: "Efficient clinical trial design for the selection of a primary binary endpoint".

Fellowships

- María de Maeztu Programme for Units of Excellence in R&D. Description: Predoctoral (and postdoctoral) fellowship from the Spanish Ministry of Economy and Competitiveness, through the María de Maeztu Programme for Units of Excellence in R&D (MDM-2014-0445). Reference: BES-2017-082157. From 2018 to 2021.(Amount: 92,750 €)
- INIREC fellowship: Support for the initiation of research Description: Master fellowship to work within the field of survival analysis in the research group GRBIO.
- Research stay fellowship (Borsa Ferran Sunyer i Balaguer, 2020). Research stay at the Center for Medical Statistics, Informatics, and Intelligent Systems, Medical University of Vienna. September–November 2020. Criterion for decision: submission of research proposal. "Statistical methodologies for efficient trial strategies in oncology".

Travel scholarships

- Young researchers mobility program BIOSTATNET (2016). Research stay with professor Antonio Martín Andrés at the Department of Statistics and Operations research of the University of Granada (Spain). 13-22 November, 2016.
- Young Statistician Showcase: Invited talk at plenary session. XVII Spanish Biometric Conference and the VII Ibero-American Biometric Meeting (CEB-EIB 2019). Criterion for decision: submission of extended abstract. "A nonparametric two-sample class of statistics for time-to-event and binary outcomes".
- Young Statistician Showcase: Invited talk at plenary session. XVI Spanish Biometric Conference (CEB 2017). Criterion for decision: submission of extended abstract. "Clinical Trial Designs with Multiple Binary Endpoints".

Participation in research projects

European projects

- DEFINITIVE: Diagnostic HER2DX-guided treatment for patients with early-stage HER2-positive breast cancer (Grant agreement ID: 101136953). European Commission. Horizon Europe Call 2023 on the European Cancer Mission (HORIZON-MISS-2023-CANCER)
- eWHORM: Enabling the WHO-Roadmap 2030 (Grant agreement ID: 101103053). European Commission. Research and Innovation actions supporting the global health EDCTP3 Joint Undertaking (HORIZON-JU-GH-EDCTP3-2022-01).
- EU-PEARL: EU Patient- cEntric clinicAl tRial pLatform (Grant agreement ID: 853966). European Commission. H2020-EU.3.1. Societal Challenges: Health, demographic change and well-being. Innovative Medicines Initiative 2 (IMI2) Joint Undertaking (JU).

National projects

- Estadística orientada a ciencias de salud: avances en análisis de supervivencia y ensayos clínicos (PID2023-148033OB-C21). Ministerio de Ciencia e Innovación (Spain). PI: K. Langohr, G. Gómez Melis.
- Barcelona Graduate School of Mathematics (BGSMaths) (MDM-2014-0445). Ministerio de Economía y Competitividad (Spain). PI: M. Noy
- Statistical methodologies for clinical and omics data and their applications in health sciences (PID2019-104830RB-I00). Ministerio de Ciencia e Innovación (Spain). PI: G. Gómez Melis
- Statistical methods for clinical trials, complex censoring schemes and integrative omics data analysis (MTM2015-64465-C2-1-R). Ministerio de Economía y Competitividad (Spain). PI: G. Gómez Melis
- Grup de recerca en bioestadística i bioinformàtica (GRBIO) (2017 SGR 622). Generalitat de Catalunya (Spain). PI: G. Gómez Melis
- Grup de recerca en bioestadística i bioinformàtica (GRBIO) (2014 SGR 464). Generalitat de Catalunya (Spain). PI: G. Gómez Melis
- BIOSTATNET (MTM2017-90568-REDT). Ministerio de Economía y Competitividad (Spain). PI: C. M. Cadarso Suárez
- STAT WARS: "El Imperio de los Datos" (FCT-18-12946). Ministerio de Economía y Competitividad (Spain). PI: C. M. Cadarso Suárez
- STAT WARS: el Despertar de los Datos (FCT-16-11015). Ministerio de Economía y Competitividad (Spain). PI: C. M. Cadarso Suárez

Supervision and teaching

Supervision in PhD Thesis

- *Statistical Methods and Software Solutions for Innovative Platform Trial Designs with Shared Controls* by Pavla Krotka. PhD Program: Statistics and Operations Research at the UPC. Co-supervisor: Prof. Martin Posch (Medical University of Vienna)
- *Methods for multi-stage designs with survival data and informative censoring* by Maria Lee Alcober. PhD Program: Statistics and Operations Research at the UPC. Co-supervisor: Prof. Werner Brannath (University of Bremen)

Supervision in Master and Bachelor Theses

- Co-supervision together with Prof. Martin Posch (Medical University of Vienna) in the Master's thesis: *Model-based adjustments for non-concurrent comparisons in platform trials* by Pavla Krotka, Master's programme in Data Science at the University of Vienna. (2023).
- Co-supervision together with Prof. Werner Brannath (University of Bremen) in the Master's thesis: *Online multiple testing with FWER control* by Lasse Fischer, Master Medical Biometry at the University of Bremen. (2022)

- Co-supervision together with Prof. Marta Fairén (UPC) in the Bachelor's thesis *Construcció d'un paquet R per l'estudi de variables binaries compostes* by Raquel Rovira, Bachelor in Statistics (UB-UPC). (2020)

Teaching in the courses

- *Statistics*, Bachelor in Mathematics (UPC). 2025-2026
- *Clinical Trials*, Master's degree in Statistics and Operations Research (MESIO UPC-UB). 2024-2025, 2025-2026
- *Introduction to Statistical Inference*, UPC Doctoral Program. 2024-2025, 2025-2026
- *Statistical Software*, Bachelor in Statistics (Grado Interuniversitario de Estadística UB-UPC). 2024-2025, 2025-2026
- *Statistics for Biomedical Research*. PhD Couse UPC (March 2025)
- *Lifetime Data Analysis*, MESIO UPC-UB. 2017-2018 and 2019-2020
- *Advanced Topics in Survival Analysis*, MESIO UPC-UB. 2016-2017 and 2017-2018.
- *Introducción a la Inferencia Estadística*, Bachelor in Statistics (UB-UPC). 2017-2018
- *Probabilitat i Estadística*, Bachelor's degree in Informatics Engineering (FIB UPC). 2016-2017 and 2024-2025

Conference oral presentations

Invited sessions at conferences

- 8th International Symposium on Biopharmaceutical Statistics (ISBS)
  M. Bofill Roig. Presentation: Estimands and estimation in platform trials with time trends. Madrid (Spain), October 13 – 16, 2026.
- 34th Conference of the Austro-Swiss Region (ROeS) of the International Biometric Society (IBS)
  M. Bofill Roig. Presentation: Design and Analysis of Platform Trials Incorporating Non-concurrent Controls. Graz (Austria), September 14 – 18, 2025.
- 46th Annual Conference of the International Society for Clinical Biostatistics (ISCB)
  M. Bofill Roig. Presentation: Optimizing Treatment Allocation in Platform Trials: A Need for New Rules?. Basel (Switzerland), August 24 – 28, 2025.
- 70th Biometric Colloquium
  M. Bofill Roig. Presentation: Modeling strategies for analysing platform trials with non-concurrent controls. Lübeck (Germany), February 28 – March 01, 2024.
- Australian Trials Methodology Conference 2023
  M. Bofill Roig. Presentation: Analysis approaches for platform trials utilising non-concurrent controls. Hybrid format: Melbourne (Australia) and online, 17-18 October, 2023.
- VII Spanish Biometric Conference and the VII Ibero-American Biometric Meeting (CEB-EIB 2023)
  M. Bofill Roig. Presentation: Maximizing Efficiency in Platform Trials with Shared Controls: Optimal allocation strategies. Vigo (Spain), 27-30 June, 2023.
- Workshop Adaptive Designs and Multiple Testing Procedures 2023
  M. Bofill Roig. Presentation: Optimal allocation strategies for platform trials. Basel, April, 2023.
- The ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop 2021
  M. Bofill Roig. Presentation: Statistical Inference in Platform Trials with Non-Concurrent Controls. Washington (USA) - Online, September, 2021.
- XXXIInd Conference of the Austro-Swiss Region (ROeS) of the International Biometric Society
  M. Bofill Roig. Presentation: Treatment-control Comparisons in Platform Trials with Non-concurrent Controls. Salzburg (Austria), September, 2021.

Invited talks at seminars

- Heidelberger Kolloquim Medizinische Biometrie
  M. Bofill Roig. Presentation: Statistical modelling for utilising non-concurrent controls in platform trials. Heidelberg, 17 July, 2023.

- Australian Trials Methodology (AusTriM) Research Network - Adaptive designs series
  M. Bofill Roig. Presentation: Non-Concurrent Controls in platform trials. Australia - Online, April, 2022.

Contributed sessions at conferences

- Adaptive Designs and Multiple Testing Procedure Workshop (ADMTP2026)
  M. Bofill Roig, E. Glimm, K. Van Lancker, M. Posch. Presentation: Estimands and Estimation Strategies for Platform Trials with Time Trends. Newcastle upon Tyne (UK), 26-27 February, 2025.
- Adaptive Designs and Multiple Testing Procedure Workshop (ADMTP2025)
  M. Bofill Roig, E. Glimm, K. Van Lancker, M. Posch. Presentation: Unconditional treatment effect estimates when adjusting for time in platform trials with binary endpoints. Regensburg (Germany), 26-27 February, 2025.
- 5th Conference of the Central European Network (CEN2023)
  M. Bofill Roig, M. Posch. Presentation: Adaptive selection of binary composite endpoints and sample size reassessment based on blinded data. Basel (Switzerland), 3-7 September, 2023.
- International Conference on Multiple Comparison Procedures (MCP 2022)
  M. Bofill Roig, M. Posch. Presentation: Methods for utilising non-concurrent controls in platform trials. Bremen (Germany), 30 August - 2 September, 2022.
- 31st International Biometric Conference (IBC2022)
  M. Bofill Roig, M. Posch. Presentation: Utilizing non-concurrent controls in platform trials in the presence of time trends. Riga (Latvia), 10-15 July, 2022.
- Adaptive Designs and Multiple Testing Procedures Workshop 2022
  M. Bofill Roig, M. Posch. Presentation: Model-based approaches for utilising non- concurrent controls in platform trials. Heidelberg (Germany), 29 June -1 July, 2022.
- XVIII Spanish Biometric Conference (CEB 2022)
  M. Bofill Roig, M. Posch. Presentation: Current statistical issues in platform trials for the evaluation of multiple treatments. Madrid (Spain), 25-27 May, 2022.
- Australian Trials Methodology Conference 2021
  M. Bofill Roig. Presentation: Valid inference when using non-concurrent controls in platform trials. Australia - Online, December, 2021.
- 42nd Annual Conference of the International Society for Clinical Biostatistics (ISCB 2021)
  M. Bofill Roig, G. Gómez Melis, M. Posch, F. Koenig. Presentation: Adaptive clinical trials with selection of composite endpoints and sample size reassessment. Lyon (France) - Online, July, 2021.
- IV Jornadas Científicas de Estudiantes de la Sociedad Española de Biometría (SEB) (IV-JJSEB)
  M. Bofill Roig, G. Gómez Melis. Presentation: CompARE: A web app to study Composite Endpoints. Albacete (Spain), 5-6 September, 2019.
- 40th Annual Conference of the International Society for Clinical Biostatistics (ISCB 2019)
  M. Bofill Roig, G. Gómez Melis. Presentation: A general class of statistics for binary and survival outcomes. Leuven (Belgium), 14-18 July, 2019.
- XVII Spanish Biometric Conference and the VII Ibero-American Biometric Meeting (CEB-EIB 2019)
  M. Bofill Roig, G. Gómez Melis. Presentation: A nonparametric two-sample class of statistics for time-to-event and binary outcomes. Valencia (Spain), 19-21 June, 2019.
- 8th Annual Survival Analysis for Junior Researchers Conference (SAfJR 2019)
  M. Bofill Roig, G. Gómez Melis. Presentation: Binary and survival joint test. Copenhagen (Denmark), 24-26 April, 2019.
- 4a Reunión General de BIOSTATNET
  M. Bofill Roig, G. Gómez Melis. Presentation: Binary and survival joint test. Santiago de Compostela (Spain), 25-26 January, 2019.
- XXIXth International Biometric Conference (IBC 2018)
  M. Bofill Roig, G. Gómez Melis. Presentation: Sample Size Derivation for Composite Binary Endpoints Accounting for Departures of the Anticipated Values. Barcelona (Spain), 8-13 July, 2018.

- III Jornadas Científicas de Estudiantes de la SEB (III-JJSEB).
  M. Bofill Roig, JL Jiménez. Presentation: Facing the challenges in clinical trials. Bilbao (Spain), January, 2018.
- XVI Spanish Biometric Conference (CEB 2017).
  M. Bofill Roig, G. Gómez Melis. Presentation: Clinical Trial Designs with Multiple Binary Endpoints. Sevilla (Spain), 13-15 September, 2017.
- IV Congreso de Jóvenes Investigadores Real Sociedad Matemática Española.
  M. Bofill Roig, G. Gómez Melis. Presentation: Clinical Trial Designs with Multiple Binary Endpoints. Valencia (Spain), 4-8 September, 2017.
- International Society for Clinical Biostatistics Conference 2017 (ISCB 2017).
  M. Bofill Roig, G. Gómez Melis. Presentation: Sample size derivation for Binary Composite Endpoints. Vigo (Spain), 9-13 July, 2017.
- 9th EMR-IBS and Italian Region Conference (EMR-IBS 2017).
  M. Bofill Roig, G. Gómez Melis. Presentation: The anticipated odds ratios to decide the choice of a primary binary endpoint. Thessaloniki (Greece), 8-12 May, 2017.
- 3a Reunión General BIOSTATNET 2017.
  M. Bofill Roig, G. Gómez Melis. Presentation: Sample size determination using composite binary endpoints. Santiago de Compostela (Spain), 20-21 January, 2017.
- II Jornadas Científicas de Estudiantes de la SEB (II-JJSEB).
  M. Bofill Roig, G. Gómez Melis. Presentation: The efficient choice of a primary binary endpoint for sample size assessment. Barcelona (Spain), 8-9 September, 2016.
- International Society for Clinical Biostatistics Conference 2016 (ISCB 2016).
  M. Bofill Roig, G. Gómez Melis. Presentation: The efficient choice of a primary binary endpoint for sample size assessment. Birmingham (UK), 21-25 August, 2016.

Professional society involvement

- Chair of the *Adaptive Designs and Multiple Testing Procedures Joint Working Group*
  Section of the ROeS and the German Region of the IBS 2024–Present
- Co-Chair of the *Adaptive Designs and Multiple Testing Procedures Joint Working Group*
  Section of the ROeS and the German Region of the IBS 2022–2024
- Board member of the Societat Catalana d'Estadística 2019–2022
- SEB-BIOSTATNET Mentoring Committee member 2018–2022
- Member of the International Biometric Society (Spanish and ROeS regions)

Participation in research events

- Scientific Program Committee. 33rd International Biometric Conference. Seoul (South Korea), 12-16 July 2026
- Chair Local Organising Committee and Scientific Program Committee. Workshop Adaptive Designs and Multiple Testing Procedures, 25–26 April 2024. https://admtp.github.io/ADMTP2024/
- Volunteer in the Local Organising Committee. XXIXth International Biometric Conference.
  Barcelona (Spain), 8-13 July 2018.
- Local Organising Committee and Scientific Program Committee. III Jornadas Científicas de Estudiantes de la SEB.
  Bilbao (Spain), 18-19 Jan. 2018.
- Local Organising Committee and Scientific Program Committee. II Jornadas Científicas de Estudiantes de la SEB.
  Barcelona (Spain), 8-9 Sept. 2016.
